That the House recede from its disagreement to the amendment of the Senate numbered 140, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert:

Sec. 8025. Notwithstanding any other provision of law, to establish region-wide, at-risk, fixed price managed care contracts possessing features similar to those of the CHAMPUS Reform Initiative, the Secretary of Defense shall submit to the Congress a plan to implement a nation-wide managed health care program for the military health services system not later than December 31, 1993: Provided, That the program shall include, but not be limited to: (1) a uniform, stabilized benefit structure characterized by a triple option health benefit feature; (2) a regionally-based health care management system; (3) cost minimization incentives including 'gatekeeping' and annual enrollment procedures, capitation budgeting, and at-risk managed care support contracts: and (4) full and open competition for all managed care support contracts; Provided further, That the implementation of the nation-wide managed care military health services system shall be completed by September 30, 1996: Provided further, That the Department shall competitively award contracts in fiscal year 1994 for at least four new region-wide, at-risk, fixed price managed care support contracts consistent with the nationwide plan, that one such contract shall include the State of Florida (which may include Department of Veterans Affairs' medical facilities with the concurrence of the Secretary of Veterans Affairs), one such contract shall include the States of Washington and Oregon, and one such contract shall include the State of Texas: Provided further, That any law or regulation of a State or local government relating to health insurance, prepaid health plans, or other health care delivery, administration, and financing methods shall be preempted and shall not apply to any region-wide, at-risk, fixed price managed care contract entered into pursuant to chapter 55 of title 10, United States Code: Provided further, That the Department shall competitively award within 13 months after the date of enactment of this Act two contracts for stand-alone, at-risk managed mental health services in high utilization, high-cost areas, consistent with the management and service delivery features in operation in Department of Defense managed mental health care contracts: Provided further, That the Assistant Secretary of Defense for Health Affairs shall, during the current fiscal year, initiate through competitive procedures a managed health care program for eligible beneficiaries in the area of Homestead Air Force Base with benefits and services substantially identical to

those established to serve beneficiary populations in areas where military medical facilities have been terminated, to include retail pharmacy networks available to Medicare-eligible beneficiaries, and shall present a plan to implement this program to the House and Senate Committees on Appropriations not later than January 15, 1994.

And the Senate agree to the same.

Amendment numbered 141:

That the House recede from its disagreement to the amendment of the Senate numbered 141, and agree to the same with an amendment, as follows:

Restore the matter stricken and retain the matter inserted by said amendment, amended as follows:

In lieu of the matter restored by said amendment insert:

Sec. 8028. Of the funds appropriated to the Army, \$217,600,000 shall be available only for the Reserve Component Automation System (RCAS): Provided, That none of these funds can be expended--

(1) except as approved by the Chief of the National Guard Bureau;

(2) unless RCAS resource management functions are performed by the National Guard Bureau;

(3) to pay the salary of an RCAS program manager who has not been selected and approved by the Chief of the National Guard Bureau and chartered by the Chief of the National Guard Bureau and the Secretary of the Army;

(4) unless the Program Manager (PM) charter makes the PM accountable to the Chief of the National Guard Bureau and fully defines his authority, responsibility, reporting channels and organizational structure;

(5) to pay the salaries of individuals assigned to the RCAS program management office unless such organization is comprised of personnel chosen jointly by the Chiefs of the National Guard Bureau and the Army Reserve;

(6) to pay contracted costs for the acquisition of RCAS unless RCAS is an integrated system consisting of software, hardware, and communications equipment and unless such contract continues to preclude the use of Government furnished equipment, operating systems, and executive applications software; and

(7) unless RCAS performs its own classified information processing: Provided further, That notwithstanding any other provision of law, none of the funds appropriated shall be available for procurement of computers for the Army Reserve Component which are used to network or expand the capabilities of existing or future information systems or duplicate functions to be provided under the RCAS contract unless the procurement meets the following criteria: (A) at sites scheduled to receive RCAS equipment prior to September 30, 1995, RCAS ADP equipment may be procured and only in the numbers and types allocated by the RCAS program to each site; and at sites scheduled to receive RCAS equipment after September 30, 1995, RCAS ADP equipment from a list of RCAS compatible equipment approved by the Chief of the National Guard Bureau or his designee, may be procured and only in the numbers and types allocated by the RCAS program to each site; (B) the requesting organizational element has insufficient ADP equipment to perform administrative functions but not to exceed the number of work stations determined by the RCAS program for that site; (C) replacement equipment will not exceed the minimum required to maintain the reliability of existing capabilities; (D) replacement will be justified on the basis of cost or feasibility of repairs and maintenance of present ADP equipment as compared to the cost of replacement; and (E) the procurement under this policy must be approved by the Chief of the National Guard Bureau or his designee, provided that the procurement is a one for one replacement action of existing equipment.

Sec. 8070. (a) Of the funds made available in this Act in title II, Operation and Maintenance, Army, \$5,000,000 shall be available only to execute the cleanup of uncontrolled hazardous waste contamination

affecting the Sale Parcel at Hamilton Air Force Base, in Novato, in the State of California.

(b) Notwithstanding any other provision of law, in the event that the purchaser of the Sale Parcel exercises its option to withdraw from all or a portion of the sale, as provided in the Agreement and Modification, dated September 25, 1990, between the Department of Defense, the General Services Administration, and the purchaser, as amended, the purchaser's deposit of \$4,500,000 shall be returned by the General Services Administration and funds eligible for reimbursement under the Agreement and Modification, as amended, shall come from the funds made available to the Department of Defense by this Act.

(c) In the event that the purchaser purchases only a portion of the Sale Parcel and exercises its option to withdraw from the sale as to the rest of the Sale Parcel, the portion of the Sale Parcel that is not purchased (other than Landfill 26 and an appropriate buffer area around it and the groundwater treatment facility site), together with any of the land referred to in section 9099(e) of Public Law 102-396 that is not purchased by the purchaser, shall be sold to the City of Novato, in the State of California, for the sum of One Dollar as a public benefit transfer for school, classroom or other educational use, for use as a public park or recreation area or for further conveyance as provided herein, subject to the following restrictions: (1) if the City sells any portion of such land to any third party within ten years after the transfer to the City, which sale may be made without the foregoing use restrictions, any proceeds received by the City in connection with such sale, minus the demonstrated reasonable costs of conducting the sale and of any improvements made by the City to the land following its acquisition of the land (but only to the extent such improvements increase the value of the portion sold), shall be immediately turned over to the Army in reimbursement of the withdrawal payment made by the Army to the contract purchaser and the costs of cleaning up the Landfill and (2) until one year following completion of the cleanup of contaminated soil in the landfill and completion of the groundwater treatment facilities, the sale must be at a per-acre price for the portion sold that is at least equal to the per-acre contract price paid by the purchaser for the portion of the Sale Parcel purchased under the Agreement and Modification, as amended, and thereafter must be at a price at least equal to the fair market value of the portion sold. The foregoing restrictions shall not apply to a transfer to another public or quasi-public agency for public uses of the kind described above. The deed of the City shall contain a clause providing that, if any of the

proceeds referred to in clause (1) are not delivered to the Army within 30 days after sale, or any portion of the land not sold as provided herein, is used for other than educational, park or recreational uses, title to the applicable portion of such land shall revert to the United States Government at the election of the General Services Administration. The Army shall agree to deliver into the applicable closing escrow an acknowledgement of receipt of any proceeds described in clause (1) above and a release of the reverter right as to the affected land, effective upon such receipt.

(d) Notwithstanding any other provision of law, the Air Force shall be reimbursed for expenditures in excess of \$15,000,000 in connection with the total clean-up of uncontrolled hazardous waste contamination on the aforementioned Sale Parcel from the proceeds collected upon the closing of any portion of the Sale Parcel purchased by the contract purchaser under the Agreement and Modification, as amended.

(e) Notwithstanding any other provision of law, the purchaser's reimbursement claims shall be audited by the Defense Contract Audit Agency for reasonableness and accuracy before the Department of Defense provides any funds under the purchaser's withdrawal and reimbursement rights.

Sec. 8114. Notwithstanding any other provision of law, none of the funds appropriated for fiscal year 1993 and fiscal year 1994 for the DDG-51 destroyer program shall be obligated or expended for procurement of the ring laser gyroscope inertial navigation system under a sole source contract.

Sec. 8115. The Secretary of the Navy shall carry out the establishment of the Mine Warfare Center of Excellence at the naval station at Ingleside, Texas (including the establishment of all subordinate units and the relocation of Navy mine warfare forces), in accordance with the schedule of the Navy for the establishment of such center and without regard to any alteration in that schedule that would otherwise be required pursuant to any other provision of law enacted during the first session of the 103d Congress that applies specifically to the construction and operation of that center or to the relocation of Navy mine warfare forces to Ingleside, Texas.

Sec. 8115A. None of the funds appropriated by this Act shall be used to begin closing a military treatment facility unless the Secretary of Defense notifies the Committees on Appropriations of the House of Representatives and the Senate ninety days prior to such action.

Sec. 8116. Unobligated balances of the funds appropriated in Public Law 102-172 and Public Law 102-396 under the headings `World University Games', `Summer Olympics' and `World Cup USA 1994' in title II of those Acts shall, notwithstanding any other section of those Acts, remain available for obligation until September 30, 1995.

Sec. 8116A. Notwithstanding any other provision of law, reimbursements received from the North Atlantic Treaty Organization for the E-3 Airborne Warning and Control System (AWACS) Radar System Improvement Program (RSIP) attributable to development work for fiscal years 1987 through 1992 shall be available to the Air Force until September 30, 1994, for meeting that service's financial commitments for the AWACS RSIP.

Sec. 8117. (a) None of the funds appropriated or otherwise made available in this Act may be used to transport or provide for the transportation of chemical munitions to the Johnston Atoll for the purpose of storing or demilitarizing such munitions.

(b) The prohibition in subsection (a) shall not apply to any obsolete World War II chemical munition of the United States found in the World War II Pacific Theater of Operations.

(c) The President may suspend the application of subsection (a) during a period of war in which the United States is a party.

Sec. 8118. None of the funds available to the Department of Defense may be used to support the relocation of P-3 aircraft squadrons or other aircraft or units from the Naval Air Station at Barbers Point, Hawaii unless such relocation was specifically stated in the 1993 Report to the President of the Defense Base Closure and Realignment Commission.

Sec. 8119. The Secretary of Defense is authorized to use, for foreign military sales otherwise authorized under Chapter 39, title 22 United States Code or for transfer to United States Army, Army National Guard, or Army Reserves, articles and services procured for the implementation of the Italian air defense agreements: Provided, That the term `Italian air defense agreements' has the meaning given such term in Section 1050 of Public Law 102-190 (105 Stat. 1469): Provided further, That upon notification of the Government of the United States by the Government of Italy of its desire to withdraw from the Italian air defense agreement or 180 days from the

enactment of this Act, section 1050 of Public Law 102-190 (105 Stat. 1469) is repealed.

Sec. 8119A. Notwithstanding any other provision of law, funds and credits received from the contractor under contract warranties for the failure of the first ultra high frequency follow-on satellite shall no longer be available for a replacement ultra high frequency satellite but shall be made available to finance a replacement extremely high frequency satellite and its launch.

Sec. 8125. None of the funds appropriated by this Act may be used (1) to transfer to the United Nations a facility in the continental United States for use as a United Nations peacekeeping facility, or (2) for the renovation of such a facility in preparation for such a transfer.

And the Senate agree to the same.

Amendment numbered 192:

That the House recede from its disagreement to the amendment of the Senate numbered 192, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert:

Sec. 8126. (a) None of the funds appropriated in this Act may be expended by an entity of the Department of Defense unless the entity, in expending the funds, complies with the Buy American Act. For purposes of this subsection, the term 'Buy American Act' means title III of the Act entitled 'An Act making appropriations for the Treasury

and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes', approved March 3, 1993 (41 U.S.C. 10a et seq.).

(b) If the Secretary of Defense determines that a person has been convicted of intentionally affixing a label bearing a 'Made in America' inscription to any product sold in or shipped to the United States that is not made in America, the Secretary shall determine, in accordance with section 2410f of title 10, United States Code, whether the person should be debarred from contracting with the Department of Defense.

Sec. 8127. In the case of members who separate from active duty or full-time National Guard duty in a military department pursuant to a Special Separation Benefits program (10 U.S.C. Sec. 1174a) or a Voluntary Separation Incentive program (10 U.S.C. Sec. 1175) at any time after the enactment of this Act, the separation payments paid such members who are also paid any bonus provided for in chapter 5, title 37, United States Code, during the same years in which they separate shall be reduced (but in no event to an amount less than zero) by an amount equal to any such bonus: Provided, That any future bonus payments to which such members would otherwise be entitled are rescinded: Provided further, That this measure will not apply to members who separate during the last year of a bonus paid pursuant to chapter 5, title 37, United States Code: Provided further, That civilian employees of the Department of Defense are prohibited from receiving voluntary separation payments if such employees are rehired by another agency of the Federal Government within one hundred and eighty days of separating from the Department of Defense.

Sec. 8128. Under the heading 'Research, Development, Test and Evaluation, Army' in the Department of Defense Appropriations Act, 1993 (Public Law 102-396), delete the final proviso and insert in lieu thereof: ' : Provided further, That of the funds appropriated in this paragraph, \$4,000,000 shall be used only for a grant to the Assistive Technology Center at the National Rehabilitation Hospital for laboratory and other efforts associated with research and development and other programs of major importance to the Department of Defense'.

Sec. 8129. None of the funds available to the Department of Defense in this Act shall be used by the Secretary of a military department to purchase coal or coke from foreign nations for use at United States

defense facilities in Europe when coal from the United States is available.

And the Senate agree to the same.

In lieu of the matter inserted by said amendment insert:

Sec. 8134.(a)(1) The Secretary of Defense shall pay a death gratuity under this section to each beneficiary under a Servicemen's Group Life Insurance policy in the case of each deceased member of the uniformed services described in paragraph (2).

(2) This section applies with respect to any member of the uniformed services--

(A) who died on or after October 29, 1992 (the date of the enactment of the Veterans' Benefits Act of 1992 (Public Law 102-568)), and before December 1, 1992 (the effective date of amendments made by title II of the Act, relating to veterans' life insurance programs); and

(B) whose death was in performance of duty.

(b)(1) The amount of the death gratuity payable to a beneficiary under this section shall be equal to the amount of the life insurance proceeds paid or payable to that beneficiary under section 1967(a) of title 38, United States Code, by reason of death of such member.

(2) In the case of a deceased member of the uniformed services who, before death, affirmatively elected, in writing, to apply for an increase in SGLI coverage in an amount less than \$100,000 under subsection (e) of section 1967 of title 38, United States Code, the death gratuity paid under this section shall be equal to the amount of the increase so elected.

(c) A death gratuity may not be paid under this section if the deceased member, before death, affirmatively elected, in writing, to apply for increased SGLI coverage under subsection (e) of section 1967 of title 38, United States Code, and, by reason of a provision of law enacted after October 29, 1992, insurance is payable pursuant to that election.

(d) A death gratuity shall be payable under this section to a SGLI beneficiary upon receipt of a written application for the payment of such gratuity. Any such application must be received by the Secretary of Defense not later than September 30, 1994.

(e) In addition to amounts otherwise appropriated in this Act, the amount of \$5,300,000 is hereby appropriated for, and shall be available only for, the payment of death gratuities under this section. Funds provided under this section shall remain available until expended for any valid claims received by the Secretary of Defense not later than September 30, 1994.

And the Senate agree to the same.

Sec. 8148. Funds appropriated in title III of this Act for the Department of defense Pilot Mentor-Protege Program may be transferred to any other appropriation contained in this Act solely for the purpose of implementing a Mentor-Protege Program developmental assistance agreement pursuant to Section 831 of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 10 U.S.C. 2301 note), as amended, under the authority of this provision or any other transfer authority contained in this Act.

Sec. 8149. Funding appropriated under the heading `Operation and Maintenance, Defense-Wide' for increasing energy and water efficiency in Federal buildings may be transferred to other appropriations or funds of the Department of Defense, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred.

Sec. 8150. Upon approval by the Secretary of the Navy, clause (2) of section 7308(c) of title 10, United States Code, shall not apply with respect to the transfer of the USS Blueback by the Secretary of the Navy under section 7308(a) of such title.

Sec. 8151. (a) The Congress finds that--

(1) the United States entered into Operation Restore Hope in December of 1992 for the purpose of relieving mass starvation in Somalia;

(2) the original mission in Somalia, to secure the environment for humanitarian relief, had the unanimous support of the Senate, expressed in Senate Joint Resolution 45, passed on February 4, 1993, and was endorsed by the House when it amended S.J. Res. 45 on May 25, 1993;

(3) Operation Restore Hope was being successfully accomplished by United States forces, working with forces of other nations, when it was replaced by the UNOSOM II mission, assumed by the United Nations on May 4, 1993 pursuant to United Nations Resolution 814 of March 26, 1993;

(4) neither the expanded United Nations mission of national reconciliation, nor the broad mission of disarming the clans, nor any other mission not essential to the performance of the humanitarian mission has been endorsed or approved by the Senate;

(5) the expanded mission of the United Nations was, subsequent to an attack upon United Nations forces, diverted into a mission aimed primarily at capturing certain persons, pursuant to United Nations Security Council Resolution 837, of June 6, 1993;

(6) the actions of hostile elements in Mogadishu, and the United Nations mission to subdue those elements, have resulted in open conflict in the city of Mogadishu and the deaths of 29 Americans, at least 159 wounded, and the capture of American personnel; and

(7) during fiscal years 1992 and 1993, the United States incurred expenses in excess of \$1.1 billion to support operations in Somalia.

(b) The Congress approves the use of United States Armed Forces in Somalia for the following purposes--

(1) The protection of United States personnel and bases; and

(2) The provision of assistance in securing open lines of communication for the free flow of supplies and relief operations through the provision of--

(i) United States military logistical support services to United Nations forces; and

(ii) United States combat forces in a security role and as an interim force protection supplement to United Nations units: Provided, That funds appropriated, or otherwise made available, in this or any other Act to the Department of Defense may be obligated for expenses incurred only through March 31, 1994, for the operations of United States Armed Forces in Somalia: Provided further, That such date may be extended if so requested by the President and authorized by the Congress: Provided further, That funds may be obligated beyond

March 31, 1994 to support a limited number of United States military personnel sufficient only to protect American diplomatic facilities and American citizens, and noncombat personnel to advise the United Nations commander in Somalia: Provided further, That United States combat forces in Somalia shall be under the command and control of United States commanders under the ultimate direction of the President of the United States: Provided further, That the President should intensify efforts to have United Nations member countries immediately deploy additional troops to Somalia to fulfill previous force commitments made to the United Nations and to deploy additional forces to assume the security missions of United States Armed Forces: Provided further, That--

(A) captured United States personnel in Somalia should be treated humanely and fairly; and

(B) the United States and the United Nations should make all appropriate efforts to ensure the immediate and safe return of any future captured United States personnel: Provided further, That the President should ensure that, at all times, United States military personnel in Somalia have the capacity to defend themselves, and American citizens: Provided further, That the United States Armed Forces should remain deployed in or around Somalia until such time as all American service personnel missing in action in Somalia are accounted for, and all American service personnel held prisoner in Somalia are released: Provided further, That nothing herein shall be deemed to restrict in any way the authority of the President under the Constitution to protect the lives of Americans.

Sec. 8152. Funds appropriated by this Act for intelligence or intelligence-related activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 1994 until the enactment of the Intelligence Authorization Act for fiscal year 1994.

Sec. 8153. (1) Except as provided in subsection (c) below, it is the sense of the Congress that none of the funds appropriated by this Act should be obligated or expended for costs incurred by the United States Armed Forces units serving in any international peacekeeping or peace-enforcement operations under the authority of Chapter VI or Chapter VII of the United Nations Charter and under the authority of a United Nations Security Council Resolution, or for costs incurred by United States Armed Forces serving in any significant international humanitarian, peacekeeping or peace-enforcement operations, unless:

(a) the President initiates consultations with the bi-partisan leadership of Congress, including the leadership of the relevant committees, regarding such operations; these consultations should be initiated at least 15 days prior to the initial deployment of United States Armed Forces units to participate in such an operation, whenever possible, but in no case later than 48 hours after such a deployment; and these consultations should continue on a periodic basis throughout the period of the deployment;

(b) such consultation should include discussion of--

(1) the goals of the operation and the mission of any United States Armed Forces units involved in the operation;

(2) the United States' interests that will be served by the operation;

(3) the estimated cost of the operation;

(4) the strategy by which the President proposes to fund the operation, including possible supplemental appropriations or payments from international organizations, foreign countries or other donors;

(5) the extent of involvement of armed forces and other contributions of personnel from other nations;

(6) the operation's anticipated duration and scope;

(c) subsection (a) does not apply with respect to an international humanitarian assistance operation carried out in response to natural disasters; or to any other international humanitarian assistance operation if the President reports to Congress that the estimated cost of such operation is less than \$50,000,000.

(2) Further, it is the sense of the Congress--

(a) that the President should seek a supplemental appropriation to defray the costs of United States military operations in Somalia in order to restore needed operation and maintenance funds for United States Armed Forces;

(b) that the President should seek supplemental appropriations for any significant future deployment of United States Armed Forces when such forces are to perform or have been performing international humanitarian, peacekeeping or peace-enforcement operations.

Sec. 8154. The Department shall ensure that the A-6 rewing contracts are terminated this fiscal year: Provided, That none of the funds recouped by the Department through the termination of the A-6 rewing program shall be available for obligation or expenditure during this fiscal year.

Sec. 8155. None of the funds available to the Department of Defense shall be available to make progress payments based on costs to large business concerns at rates in excess of 75% on contract solicitations issued after enactment of this Act.

Sec. 8156. Not to exceed \$100,000,000 of the funds provided in this Act may be made available for payment to non-United States government entities for logistical support of Somalia operations: Provided, That the Congressional Defense Committees are notified in advance of any obligations providing such support: Provided further, That any funds obligated pursuant to this authority shall be reimbursed by the United Nations to the Department of Defense to the originating appropriations.

And the Senate agree to the same.

Amendment numbered 225:

That the House recede from its disagreement to the amendment of the Senate numbered 225, and agree to the same with an amendment, as follows:

In lieu of the matter inserted by said amendment insert:

TITLE X

SEC. 10001. CONVEYANCE OF KAHO'OLawe ISLAND, HAWAII, TO THE STATE OF HAWAII.

(a) **Purpose:** It is timely and in the interest of the United States to recognize and fulfill the commitments made on behalf of the United States to the people of Hawaii and to return to the State of Hawaii the Island of Kaho'olawe. Kaho'olawe Island is among Hawaii's historic lands and has a long, documented history of cultural and natural significance to the people of Hawaii reflected, in part, in the Island's inclusion on the National Register of Historic Places and in the

longstanding interest in the return of the Island to State sovereignty, public access and use. Congress finds that control, disposition, use and management of Kaho'olawe is affected with a federal interest. It also is in the national interest and an obligation undertaken by Congress and the United States under this and other Acts, and in furtherance of the purposes of Executive Order 10436 (1953), to recognize the cultural and humanitarian value of assuring meaningful, safe use of the Island for appropriate cultural, historical, archaeological and educational purposes as determined by the State of Hawaii and to provide for the clearance or removal of unexploded ordnance and for the environmental restoration of the Island for such purposes. Congress also finds it is in the national interest and an essential element in the federal government's relationship with the State of Hawaii to ensure that the conveyance, clearance or removal of unexploded ordnance, environmental restoration, control of access to the Island and future of the Island be undertaken in a manner consistent with the enhancement of that relationship, the Department of Defense's military mission, the federal interest and applicable provisions of law.

(b) **Conveyance:** Subject to Section 10001(e) of this Act, the United States, through the Secretary of the Navy (also, hereinafter, "the Secretary"), shall, notwithstanding Section 120(h) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9620 (h)) convey and return, without consideration and without conditions other than those set forth in or required by this Act, to the State of Hawaii all right, title and interest of the United States, except that interest set forth in Section 10001(d)(2) and Section 10001(e) of this Act, in and to that parcel of property consisting of approximately 28,776 acres of land known as Kaho'olawe Island, Hawaii and its surrounding waters. Such conveyance of title shall occur no later than 180 days from the date of enactment of this Act and the appropriation of funds for such purposes described in this Act.

(c) **Description of Property:** The exact acreage and legal description of the parcel of property to be conveyed under Section 10001(b) shall be determined by a survey that is deemed satisfactory by the State of Hawaii in consultation with the Secretary. The cost of the survey shall be borne by the Secretary, making use of funds provided pursuant to this Act.

(d) **Implementation:** (1) The Secretary shall carry out the requirements of this Act following consultation with the State of Hawaii as required by Section 10002 of this Act and with the technical and

logistical support, as needed, of the United States Army Corps of Engineers and other federal agencies.

(2) Notwithstanding any other provisions of this Act, the Secretary shall retain the control of access to the Island, in consultation with the State of Hawaii and prior to and following the entering into force of the Memorandum of Understanding contained in Section 10002 of this Act, until either clearance and restoration are completed or within no more than 10 years after the date of enactment of this Act, whichever comes first, and control of access is transferred to the State of Hawaii, pursuant to such conditions.

(e) **Indemnification and the control of Access:** (1) The Navy shall retain control of the access to the Island during the time period set forth in Section 10001(d)(2) of this Act that it is undertaking unexploded ordnance removal and hazardous materials removal activities required in this Act.

(2) During the time period the United States retains control of access to the Island, the United States shall hold harmless, defend and indemnify the State of Hawaii or its political subdivisions from and against all claims, demands, losses, damages, liens, liabilities, injuries, deaths, penalties, fines, lawsuits and other proceedings, judgments, awards and reasonable costs and expenses arising out of, or in any manner predicated upon, the presence, release or threatened release of any munitions, exploded or unexploded ordnance, solid waste associated with such ordnance or hazardous substance, pollutant or contaminant resulting from the activities of the Department of Defense, including the activities of the Department of the Navy and the Department of the Army and any agent, employee, lessee, licensee, independent contractor or other person on the property during such time that the property was and remains under the control of the Department of Defense, Navy, Army or other agencies of the United States Government. Notwithstanding this subsection or any other provision of law, response action contractors are not included as activities of the Department of Defense under this subsection.

The term 'response action contractor' has the meaning given such term in section 119(e)(2) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9619(e)(2)), except that such term includes a person who enters into, and is carrying out, a contract to provide at a facility (including a facility not listed on the National Priorities List) a response action with respect to any release or threatened release from the facility of a

hazardous substance or pollutant or contaminant, or a similar action with respect to petroleum or its derivatives.

(3) Nothing in this Act is intended to alter or affect the federal or state requirements of law governing liability following the transfer of control of access to the State of Hawaii, except that the United States shall remain liable for and retain responsibility for any environmental restoration, remediation, or corrective action required at the property conveyed in paragraph (b).

[Page: H8988]

SEC. 10002. COOPERATION OF FEDERAL DEPARTMENTS AND THE STATE OF HAWAII AND TRANSFER OF CONTROL OF ACCESS.

(a)(1) Upon the request of the Secretary or the State of Hawaii, and in accordance with existing laws and requirements, any department or agency of the Federal Government may provide assistance to the Secretary or the State of Hawaii, as the case may be, in carrying out their respective duties under this Act.

(2) Within 180 days following passage of this Act, and notwithstanding any other provision of law, the Secretary shall consult with and enter into a Memorandum of Understanding with the State of Hawaii governing the terms and conditions of (i) access to the Island for those purposes set forth in Sections 10001 and 10002 of this Act and any other cultural, archeological, educational and planning purposes provided for in this title, giving due regard to the risk of harm to public health and the environment and safety involved in providing such access and the need to avoid interference with or disruption of the Navy's clearance, removal and remediation activities; (ii) the timing, planning, methodology and implementation of ordnance clearance or removal and hazardous substance clearance and other waste removal and the protection of historical, cultural and religious sites and artifacts, provided that all reasonable effort should be made to avoid harm to such sites and artifacts from the detonation of unexploded ordnance, clearance or removal of ordnance, and hazardous substance clearance; (iii) the establishment of a two-tiered standard of restoration and ordnance clearance, removal, restoration and safety, taking into account the purpose for which any geographic area will be used and the nature and purpose of human access to such area, but assuring the protection of human health and the environment; (iv) the means for protecting historical, cultural and religious sites and artifacts from intentional destruction, harm and vandalism; (v) public

participation, as appropriate, including the opportunity for public comment and hearing; and (vi) the means for regular interval clean-ups and removal of newly discovered previously undetected ordnance by the Navy. Under any such terms and conditions, the Secretary shall be assured full and necessary access to carry out the obligations of the Secretary arising out of the responsibilities and liabilities of this title. Such terms and conditions shall remain in existence until the completion of the restoration and remediation activities required by Section 10002 of this Act and be revised periodically by mutual consent and giving due regard to the importance of access to the Island as the level of clean-up, restoration and remediation moves toward attainment. Nothing in this title is intended to diminish or alter the rights and responsibilities of the Navy to allow access to the Island that existed prior to the enactment of this title.

(3) The United States, through the Secretary of the Navy, shall transfer the control of access to the State of Hawaii within no more than 10 years from the date of enactment of this Act or when the activities required by this Act, including ordnance clearance or removal activities and environmental remediation activities are completed, whichever comes first.

(4) Notwithstanding the duties and obligations set forth in this title and notwithstanding the conveyance required under Section 10001, the State of Hawaii shall not be liable or responsible for the conduct of any clean-up and response actions arising from and relating to the use, environmental clean-up and ordnance removal and remediation of Kaho'olawe Island and its adjacent waters.

SEC. 10003. KAHO'OLAWA ISLAND CONVEYANCE, REMEDIATION, AND ENVIRONMENTAL RESTORATION TRUST FUND.

(a) There is established on the books of the Treasury of the United States a fund to be known as the 'Kaho'olawe Island Conveyance, Remediation, and Environmental Restoration Fund' (hereinafter in this subsection referred to as the 'Fund'). The Fund shall be administered by the Secretary of the Treasury. The Fund shall be used for the accumulation of funds in order to pay the obligations incurred by the Secretary of the Navy or the Department of Defense in carrying out the purposes of this Act and for properly allocable costs of the Federal Government in the administration of the Fund.

(b) There shall be deposited into the Fund the following, which shall constitute the assets of the Fund:

(1) Amounts paid into the Fund from any source.

(2) Any amount appropriated to the Fund.

(3) Any return on investment of the assets of the Fund.

(c) To the extent provided in appropriation Acts, the assets of the Fund shall be available for obligation by the Secretary of the Navy to carry out the purposes of this Act.

(d) There is authorized to be appropriated into the Fund \$400,000,000, which may be appropriated as a lump sum or in annual increments. Of the amounts deposited into the Fund, not less than eleven percent shall be made available to the State of Hawaii to carry out the provisions of Section 10002 of this Act.

(e) Amounts appropriated to the Fund shall remain available until obligated or until the Fund is terminated.

(f) Upon payment of all incremental costs associated with the purposes for which the Fund is established, the Fund shall be terminated.

(g) Subject to the provisions of this Section, the Secretary is authorized to provide \$45,000,000 to the State of Hawaii for the purpose of long term planning and implementation by the State of (i) such long term planning (ii) environmental restoration activities and (iii) the terms and conditions set forth in the Memorandum of Understanding required by Section 10002 of this Act, concerning Kaho'olawe Island and its adjacent waters. Such funds as are provided by the Secretary for the purpose of carrying out this Section shall be made available to the State by the Secretary from funds made available pursuant to this Act and shall be provided to the State of Hawaii.

(h) Funds in addition to those provided pursuant to Section 10003(g) may be provided to the State of Hawaii upon the submission of an acceptable plan containing the elements identified in 10003(g) of this Act and demonstrating, to the satisfaction of the Secretary, that such funds are necessary to the proper fulfillment of such elements and the purposes of this Act. The Secretary shall have sole discretion to award such additional funds, however, the award of such funds shall not be unreasonably withheld.

SEC. 10004. ANNUAL REPORT TO CONGRESS AND RELATED DISPUTE RESOLUTION.

(a) The Secretary shall submit annually a Report, in detail, describing compliance with the provisions of this Act. Such Report shall include the comments of the State of Hawaii and be submitted to the Defense Committees of Congress.

(b) Federal Courts shall have jurisdiction to enforce the terms, conditions and provisions of this Act, regarding the activities, duties, and responsibilities of the United States, its departments, agencies and instrumentalities set forth in this Act and occurring on the Island of Kaho'olawe and in its adjacent waters. In any judicial review under this Act, the United States or the State, or both, if not a party may intervene as a matter of right. The United States, its departments, agencies and instrumentalities shall be subject to only such injunctive relief as may be imposed by the court to enforce compliance with the terms of this Act and the Memorandum of Understanding. Such compliance shall be enforced giving due regard to the need for expeditious clean-up under the terms and conditions of this Act.

And the Senate agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 3116), making appropriations for the Department of Defense for the fiscal year ending September 30, 1994, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

The conference agreement on the Department of Defense Appropriations Act, 1994, incorporates some of the provisions of both the House and Senate versions of the bill. The language and allocations set forth in House Report 103-254 and Senate Report 103-153 should be complied with unless specifically addressed in the accompanying bill and statement of the managers to the contrary.

JUSTIFICATION MATERIALS AND REPROGRAMMING PROCEDURES

The conferees agree that proposed transfers of funds between O-1 budget activity funding categories in excess of \$20,000,000 are subject to normal reprogramming procedures. Due to continuing concerns about military force readiness, the conferees also agree that the Department shall notify the Congressional defense committees prior to transfers in excess of \$20,000,000 from the following subactivity group categories:

O&M, Army

Operating forces: Combat units; Tactical support; Force-related training/special activities.

O&M, Navy

Operating forces: Mission and other flight operations; Mission and other ship operations.

O&M, Air Force

Operating forces: Primary combat forces; Primary combat weapons; Global C3I and early warning.

The conferees direct the Department to submit a Mid-Year Operation and Maintenance Execution Review not later than May 1, 1994. The review should be submitted to the Committees on Appropriations and Armed Services of the House and Senate. The conferees intend to work with the Department to determine the details of this submission.

DEPOT MAINTENANCE

The conferees are concerned about the size and cost of the depot maintenance infrastructure operated by the Department of Defense. To this end, the conferees urge the Department to improve its programs for depot maintenance competition and interservicing, and identify ways to reduce excess capacity. However, the conferees also believe that the Department needs to maintain a core in-house capability because commercial activities cannot support all mobilization needs, and because private concerns may not always be the lowest cost provider of needed depot maintenance services.

Beside the need to reduce costs and improve the efficiency of depot maintenance, the conferees are also concerned about maintaining adequate oversight. Last year the House Appropriations Committee expressed concern over this matter and directed the Department not to unilaterally implement depot 'privatization' initiatives absent Congressional approval. The conferees continue to believe the Department must develop a uniform policy concerning the public-private share of depot maintenance which, if it incorporates changes to existing policy, should be forwarded as a legislative initiative.

The conferees support recommendations found in both the House and Senate reports directing the Department of Defense to conduct analyses required to operate depot maintenance functions more efficiently. Specifically, the conferees direct that Department to take the following actions:

Privatization.--The report directed by both House and Senate in their reports accompanying this bill shall be forwarded to the Committees on Appropriations and Armed Services of the House and Senate by April 15, 1994.

Certification of Bids in Depot Maintenance Competitions.--Section 9095 of the fiscal year 1993 Defense Appropriations Act required certification of both public and private bids for depot maintenance contracts by the Defense Contract Audit Agency. The conferees wish to clarify their intent that, for competitions carried out under this

provision, DCAA audit reports containing an opinion that a bid was prepared in accordance with the DoD Cost Comparability Handbook and is acceptable for evaluation shall be considered a valid certification. The inclusion of findings questioning costs as either understated or overstated are to be considered of an advisory nature only, unless specifically stated by DCAA.

Determination of Core Depot Maintenance Workload.--The conferees direct the Department to carry out a study to determine the appropriate public/private mix needed to accomplish depot maintenance workload. In addition to identifying that workload which should be performed by the Department, this study should also develop a plan for distributing workload to DoD facilities to include increasing the use of interservicing. The Department should provide its findings to the Committees on Appropriations not later than April 15, 1994.

Funding Levels.--The conferees have not set funding levels subject to DD 1414, Base for Reprogramming, since there exists a reprogramming threshold of \$20 million between budget activities. However, the conferees caution the Department to use depot maintenance funds as a last resort for emergency purposes and, that once additional funds are provided, to restore those same amounts taken from the depot maintenance accounts. The conferees direct each Service to report to the Committees on Appropriations of the House and Senate 30 days after their mid-year reviews on the adjustments made to the depot maintenance accounts.

[Page: H8991]

SPECIAL DEPOT FACILITIES

As part of the maintenance structure supporting the Department of Defense, there are a number of special depot facilities with experienced contractor/government teams having a superior record of performance in support of small fleets of uniquely configured aircraft. The Department should consider transferring no workload from these facilities or consolidating workload within other facilities performing unrelated depot services unless such transfer or consolidation is an integral part of the Base Realignment and closure (BRAC) process, or until completion of a cost and operational effectiveness analysis (COEA) which clearly shows the benefits to the user community and to the taxpayer of such a move.

DEFENSE FINANCE AND ACCOUNTING SERVICE

The conferees agree to reduce funding for accounting services by a total of \$85,200,000, as proposed by the Senate. The specific reductions to the service and Defensewide accounts shall be rebated by the Defense Finance and Accounting Service (DFAS), as described in Senate Report 103-153. The conferees strongly agree that DFAS must reduce administrative overhead to a greater degree than that reached to date if it is to achieve the operating and efficiency objectives promised by the agency.

FUEL REPRICING AND WAR RESERVES

Since savings will result from changes in world fuel prices and war reserve requirements, the conferees agree to reduce funding for fuel purchases requested by the military services by a total of \$527,900,000. Because these savings will accrue to the Department's wholesale fuel supply system, the conferees direct the Defense Fuel Supply Center to provide, free-of-charge, fuel to the services in the amounts listed in the table on page 40 of Senate Report 103-153.

CONSOLIDATION OF COMMAND AND STAFF AND WAR COLLEGES

The conferees direct the Secretary of Defense to provide a study detailing potential cost savings from consolidation of the military services command and staff, and war colleges, and their administration. The study should include possible alternative consolidation strategies and timetables, and provide comments on the practicality of each alternative. Consideration shall be given to the progress that has been made on joint and service-specific education. The study shall also consider possible enhancements to joint education and training that may result from consolidation of these institutions, and a comparison of savings achieved through vertical integration of the administrations within each service, including instances where such integration has occurred, versus the overall integration of the administrations of the service schools. The Department shall not take action on any consolidation until the study has been submitted to the appropriate Congressional committees.

Noting the Department's noncompliance with a similar request made in the fiscal year 1993 Senate Appropriations Committee report (S. Report 102-408), this study shall be submitted to the Congressional defense committees no later than March 31, 1994. The Department's

report on this matter shall not be combined with other reports due to the Congress on military personnel management, such as Defense Officer Personnel Management Act (DOPMA) reform. If the study is not provided by the date specified above, the Conferees will consider corrective actions in ensuing legislation.

TRAVEL

The conferees note that substantial amounts appear to be set aside annually for Department of Defense personnel to attend conventions, conferences, and seminars sponsored by non-governmental organizations. The conferees also note that substantial amounts of resources are used to support conventions, and conferences sponsored by non-governmental organizations. The conferees direct the Department to limit the amount of funds and other resources it provides to various non-governmental organizations at their conventions, conferences, and other functions to one-half of the levels provided in fiscal year 1993. The conferees intend to initiate a review of the Department's support to non-governmental organizations in the near future.

DOD ENVIRONMENTAL SECURITY PROGRAMS

OVERVIEW

The conferees have agreed to a reduction of \$347,100,000 to the Defense Environmental Restoration Account (DERA) from the President's budget request due to severe budget constraints. This reduction should in no way lessen the Department's commitment to the restoration and treatment of its natural resources, and the conferees urge the new Administration to work to reduce the impediments to expeditious cleanup.

In addition, the conferees continue to strongly agree that individual site cleanup projects should not be specifically earmarked within the DERA account.

The Senate mandated a number of reports from the Department to assess the validity of requested environmental funds. The conferees agree to these new reports and direct that they be submitted annually to the Defense oversight committees.

Directions provided by either the House or Senate reports should be complied with if funding or direction has either been included by the conferees or was included in the President's budget request.

The conferees agree to the following specific allocations for environmental restoration and compliance projects. DD Form 1414 for fiscal year 1994 shall show the items marked with an asterisk (` * ') as Congressional interest items, a change to which requires prior approval. Amounts shown are in thousands of dollars.

POLLUTION ABATEMENT TEST

The Energy Policy Act of 1992 calls on the Secretary of Energy in conjunction with industry and federal agencies to conduct a study on diesel engine combustion and fuels and lubricants to reduce emissions of oxides of nitrogen and particulates. To assist in the conduct of this study, the conferees direct the Secretary of Defense to consider developing a program involving DOD fleet vehicles, in particular trucks and buses, to test diesel fuel additives as a means to reduce emissions.

[Page: H8992]

DOD SUPPORT FOR ANTARCTIC RESEARCH

The conferees note the direction in Senate Report 103-137 for the National Science Foundation and the Department of Defense to report on how changes in the armed forces may impact support for the Antarctic research program. The conferees expect that report to be provided concurrently to the Subcommittees on Defense of the House and Senate Committees on Appropriations.

CABLE TELEVISION CONTRACTS

The conferees direct the Department to develop a uniform policy toward all cable television operators that hold contracts or franchise agreements at military installations. The rules of the Federal Acquisition Regulations, including case law applicable to these contracts and franchise agreements, shall be applied in a uniform manner to contracts entered into before and after the date of enactment of this Act. The Department shall transmit a copy of the new policy 90 days after enactment of this Act to the Committees on Appropriations and Armed Services of the House and Senate.

CHILD CARE FACILITIES PRE-SCHOOL EDUCATION

The Committee is aware that child care facilities at several Army bases have implemented an innovative pre-school education initiative which utilizes the Sesame Street program as the basis for interactive reading and for assisting families to become their children's first teachers. Quality care and education of military dependents should continue to be a high priority of the Department of Defense, and the Committee recommends that the Department examine how to expand the Sesame Street pre-school education program to all branches of the military.

OPERATION AND MAINTENANCE, ARMY

Amendment No. 11: Appropriates \$15,802,057,000 instead of \$15,221,091,000 as proposed by the House and \$15,706,229,000 as proposed by the Senate.

Amendment No. 12: Deletes House language to transfer \$880,200,000 from the Defense Business Operations Fund.

Amendment No. 13: Inserts Senate language earmarking \$6,500,000 for the Army Environmental Policy Institute, of which \$2,000,000 shall be for a study on the effects of depleted uranium on the environment; inserts Senate language earmarking \$500,000 to study the effects of uranium milling on individuals employed in uranium mills between 1947 and 1971; and deletes Senate language regarding the Somalia operations which is now carried as a general provision (Section 8151).

MOBILE SUBSCRIBER EQUIPMENT MAINTENANCE

The conferees agree to delete the House reporting requirement on contractual arrangements for Mobile Subscriber Equipment maintenance.

COMBAT SURVIVAL TRAINING PROGRAM

The conferees agree that the Army should establish a combat survival training program similar to the Air Combat Aircrew Training Program. The conferees direct the Army to submit a plan to establish this

program to the Committees on Appropriations and Armed Services of the House and Senate by April 15, 1994.

FORT RAY CLEANUP

The conferees agree that \$850,000 shall be available only for the removal of hazardous material and demolition of former military facilities at the Fort Ray site in Alaska. These properties were ultimately conveyed to the Shee Atika Native corporation by the Department of Defense. The Secretary of the Army shall submit a plan for activities at the Ft. Ray site to the Committees on Appropriations of the House and Senate not later than February 1, 1994.

LIFE SCIENCES LAB

The conferees provide \$500,000 for the Air Force's Life Sciences Equipment Laboratory. This lab is involved in the identification of POW/MIA remains.

OPERATION AND MAINTENANCE, NAVY

Amendment No. 14: Appropriations \$19,860,309,000 instead of \$18,097,782,000 as proposed by the House and \$19,845,083,000 as proposed by the Senate.

Amendment No. 15: Deletes House language to transfer \$1,092,700,000 from the Defense Business Operations Fund.

Amendment No. 16: Restores House language earmarking \$350,000 to connect residences in the vicinity of the Naval Air Warfare Center to the Warminster municipal water supply system.

NAVAL PUBLIC WORKS FACILITY, PASCAGOULA

The conferees are aware that after nearly three years the Navy has yet to resolve claims associated with a Naval Public Works Facility, Contract No. N62467-88-CO-0039, even though the facility is complete. The conferees firmly recommend that Navy settle or resolve these claims expeditiously and direct the Department to provide a status report to the Committees on Appropriations of the House and Senate by January 15, 1994 on its actions.

JUNIOR LEADERSHIP CORPS

The conferees urge the Department to apply \$4 million of available funds to the Junior Leadership Corps pilot program to be conducted at Loring AFB.

HAIFA PORT

In a previous act, the Congress directed the Navy to submit a report detailing possible requirements for upgrades to the Israeli Port of Haifa. Such upgrades would have been in support of U.S. Navy operations in the eastern Mediterranean. That report was submitted by the Secretary of the Navy and reviewed by the Congress. The report indicates that the Haifa port provides a full range of support needed by Navy ships visiting the region. Although no additional funding for port upgrades is available at this time due to budget constraints, the conferees will continue to examine this matter. The conferees wish to express their gratitude to the Government of Israel and the Israeli people for making available to U.S. servicemen and women the facilities of Haifa Port.

NAVY GRADUATE EDUCATION

The conferees direct that funding of at least \$38,500,000 be made available to the Naval Postgraduate School for its fiscal year 1994 programs, including \$1,000,000 for expanding joint warfare analysis programs.

SOUTHERN MARYLAND HIGHER EDUCATION FACILITY

The conferees direct the Navy to provide support for the southern Maryland higher education facility that will exist to provide graduate level engineering and other education courses for military and civilian personnel at the Patuxent Naval Air Warfare Center.

OPERATION AND MAINTENANCE, MARINE CORPS

Amendment No. 17: Deletes center heading.

Amendment No. 18: Appropriates \$1,857,699,000 instead of \$1,773,889,000 as proposed by the House and \$1,834,495,000 as proposed by the Senate and deletes House language to transfer \$121,000,000 from the Defense Business Operations Fund.

Amendment No. 21: Restores and amends House language to provide funding for the Tactical Interim CAMS and REMIS Reporting System (TICARRS-92); restores House language providing funding for the Women in Military Service For America Memorial Foundation, Inc., for specific repair, restoration and preservation functions at Arlington National Cemetery; and restores House language providing funding for continued environmental restoration of the former Olmsted Air Force Base, Pennsylvania.

AUTOMATED LOGISTICS MAINTENANCE SYSTEMS

Last year, the conferees directed the Institute for Defense Analyses (IDA) to complete a comparative evaluation of CAMS/REMIS and

TICARRS. This evaluation was directed because the General Accounting Office (GAO) and a Department of Defense Major Information System Review Council had found serious deficiencies in the ability of CAMS and REMIS to deliver timely and accurate data.

IDA verified these previous findings that CAMS/REMIS has problems with data integrity, availability and responsiveness. Furthermore, IDA concluded that because of the complexity of the CAMS/REMIS architecture, it is very uncertain that these shortcomings can be overcome. It also found that the Air Force could save \$100,000,000 over ten years by using TICARRS instead of CAMS/REMIS. IDA's overall assessment concluded that TICARRS is at least as effective as CAMS/REMIS with less risk and cost.

Given these findings, the conferees support the House position and direct in the interim that the Air Force reestablish TICARRS, with direct data input, as the maintenance management system for F-15, F-16 and F-117A aircraft.

The conferees further direct that the Deputy Secretary of Defense provide the Committees on Appropriations of the House and Senate a report not later than May 15, 1994, on plans to develop a new joint service, Secretary of Defense-managed, logistics maintenance system. This report should include, but not be limited to: a proposed acquisition timeline, the cost of one new joint system, an evaluation of the applicability of OMB Circular A-109, and the naming of an Office of the Secretary of Defense designee who will manage this important acquisition.

STANDARDIZATION OF MAINTENANCE SYSTEM APPLICATIONS

The Army was tasked in a Program Decision Memorandum, entitled 'Army Maintenance Information System', (September 18, 1992), to implement a smart data system. Subsequently, the Army was directed to fund a concept demonstration for presentation to the Undersecretary of Defense for Acquisition on April 1, 1993. However, the conferees have been informed that no action has yet been taken by the Army.

The conferees support the concept of a joint program for maintenance support below the wholesale logistics level, and therefore encourage the Department to carefully evaluate several potential systems before selecting one maintenance support system.

In keeping with this philosophy, the conferees direct that the Army complete a smart data system concept demonstration under the auspices of the Undersecretary of Defense for Acquisition who shall report the results to the defense committees prior to September 30, 1994.

ALTERNATE DISPUTE RESOLUTION

The conferees recommend an additional \$200,000 over the request for alternate dispute resolution training and program resolution. These funds are required as a result of recent decisions expanding the Air Force's successful efforts to date in implementing the Administrative Dispute Resolution Act of 1990.

OVER-THE-HORIZON BACKSCATTER RADAR SYSTEM

The conferees agree with the Senate language directing the Air Force to continue operating the East Coast Over-the-Horizon Backscatter (OTH-B) radar at no less than the current 40 hour per week schedule, and to ensure that all OTH-B tracking data is transmitted directly to DOD and civilian agencies responsible for providing counterdrug detection and monitoring support to law enforcement agencies. In order to utilize the full potential of this wide-area sensor, the conferees direct DOD to (1) assist the Air Force in linking the East Coast OTH-B radar site data directly to users, including but not limited to the U.S. Customs/Coast Guard C3I Center, Miami; Joint Task Force 4 Operations Center, Key West; U.S. Southern Command Operations Center, Key West; and U.S. Southern Command Operations Center, Panama; and (2) fully cooperate with efforts of other government agencies to utilize the dual-use capabilities of this system for remote environmental and weather monitoring and other purposes.

DOD NAVIGATION AIDS

The conferees understand that the Air Force and Navy plan to terminate non-directional beacon signals (NBS) navigation aids at Adak Naval Air Station and Eareckson Air Force Station. The conferees direct that these facilities remain in operation until thirty days after the Secretary of the Air Force and the Administrator of the Federal Aviation Administration jointly report to the Committees on Appropriations of the House and Senate the impact of this proposal on military, commercial and private aviation in the regions served by the navigational aids, and how necessary navigational assistance will be maintained.

INVESTIGATION OF RADIATION TESTING

In 1957, the Air Force conducted tests of radioactive material on Alaska Natives. The conferees are concerned about the long term implications of these tests on the Native groups involved, and the failure of the Department of Defense to conduct adequate followup evaluation of these cases. The conferees agree that \$150,000 shall be available only for the investigation of the tests conducted by the Air Force, and for the preparation of a report recommending specific actions to be taken by the Department of Defense to ensure that the health needs of individuals who were involved in these tests are addressed.

C-12 AIRCRAFT

The conferees direct the Air Force to continue funding and performing operation and maintenance activities on C-12 aircraft used by Defense Attaches.

C-20 AIRCRAFT TRANSFER

The conferees direct the Secretary of the Air Force to transfer one C-20 aircraft from the Air Force's current aircraft inventory to the Coast Guard.

OPERATION AND MAINTENANCE, DEFENSE-WIDE

Amendment No. 22: Appropriations \$9,456,801,000 instead of \$9,487,133,000 as proposed by the House and \$9,452,165,000 as proposed by the Senate.

The conferees direct that Budget Activity 1, Operation and Maintenance, Defense-Wide, be excluded from reductions shown under `Defensewide Reductions', Line No. 16680.

SPECIAL OPERATIONS FORCES

Fort Bragg Base Support.--The conferees agree that base support provided by Fort Bragg to the Special Operations Forces stationed at that installation shall be budgeted in Operation and Maintenance, Defense-wide, U.S. Special Operations Command, starting in fiscal year 1995.

Joint Special Operations Command (JSOC): The conferees expect that all of the funds provided in this Act for the JSOC shall be made available to JSOC for obligation no later than 30 days after enactment by the Special Operations Command, and shall not be withheld for any reason without the explicit approval of the Committees of jurisdiction.

JOINT MILITARY CONTACT TEAM PROGRAM

The conferees agree to provide \$10,000,000 for the Joint Military Contact Team program. As part of this program, the National Guard `Partnership States' arrangement has met with particular success in the Baltic nations. The conferees expect the Department to continue including Guard and Reserve components in this program.

DEFENSE PERSONNEL SUPPORT COMMAND

The conferees agree that the Department should consider increasing its purchases of Jumbo, Colossal and Super Colossal ripe olives.

Defense Logistics Agency

AUTOMATED DOCUMENT CONVERSION SYSTEM

The conferees recommend an additional \$14,000,000 only for a competitively procured Automated Document Conversion System for the Defense Logistics Agency. This system shall be capable of efficiently converting information contained in technical documents (including technical manuals, engineering drawings and maps). The system also shall be able to recognize and distinguish between printed alpha numerics, geometric representations, symbols, and foreign font sets as objects.

MILITARY YOUTH PROGRAMS

The conferees agree to provide \$70,000,000 for military youth programs initiated last year by Congress that were not funded in the President's 1994 request. These funds are appropriated to the Office of the Secretary of Defense and may be made available to the following programs: the National Guard ChalleNGe program, STARBASE, and the CCC program. The Department is directed to provide to the Committee on Appropriations of the Senate and the House a report detailing the objectives of each of these programs, the unique features of each program, objective measures of success, a plan for consolidating these programs, should overlap exist, and a plan for allocating these additional funds. That report is to be provided to the Committees no later than 60 days after enactment of this Act. The conferees intend to work with the Department to determine the exact allocation of these funds over the coming fiscal year, but urge the Department to provide sufficient funds to establish new state ChalleNGe programs in at least five states.

EDUCATIONAL DEVELOPMENT GRANT

The conferees agree that of the funds available to Operation and Maintenance, Defense-wide, \$160,000 shall be available only for a grant to the Network for Educational Development in St. Louis, Missouri, for the support of the Personal Responsibility Education Program. This will be the second year for this program. The Secretary

shall notify the Committees on Appropriations of the House and Senate upon execution of the grant.

Amendment No. 23: Deletes House language for the Special Operations Command; restores House language providing \$10,000,000 for clearing of landmines for humanitarian purposes; deletes House language which made a portion of the appropriation available for obligation only after enactment of authorizing legislation; inserts and amends Senate providing \$48,000,000 for aiding school districts; inserts and amend Senate language providing \$50,000,000 for the Legacy Resource Management Program; and inserts Senate language providing \$10,000,000 for the repair and maintenance of federally owned education facilities located on military installations.

[Page: H8999]

LANDMINE CLEARING

The conferees recommend \$10,000,000 for activities to support the clearing of landmines for humanitarian purposes. The conferees intend that the Department of Defense will use these funds for technical assistance, training and equipment for landmine clearing for humanitarian purposes, including locations where refugees and displaced persons are seeking to return to their land after a conflict has ended.

LEGACY RESOURCE MANAGEMENT PROGRAM

The conferees have provided \$50,000,000 as recommended by the Senate to continue the Legacy Resource Management Program. The conferees direct that lands, facilities and property owned and/or managed by the National Guard in each of the fifty states and territories are specifically included in the Legacy Resource Management Program.

Amendment No. 24: Inserts Senate language providing \$1,000,000 for Secretary of Defense review of captured Iraqi government documents relating to Kurds, provides \$1,000,000 for Defense Mapping Agency for evaluation of Former Soviet Union materials, and requests a report from Defense Mapping Agency by March 15, 1994.

OPERATION AND MAINTENANCE, ARMY RESERVE

Amendment No. 25: Appropriates \$1,075,140,000 instead of \$1,115,095,000 as proposed by the House and \$1,057,740,000 as proposed by the Senate and deletes House language prohibiting obligation of \$19,505,000 until authorized.

C-23B AIRCRAFT

The conferees provide \$2,800,000 for the pilot training, preparation and contractor logistics support of four C-23 commercial variants by the original manufacturer. These funds also may be used to operate these aircraft which are being procured with prior year funds and will be stationed with the Oklahoma National Guard during the first quarter of fiscal year 1994 prior to the completion of their retrofit into C-23B Sherpas.

COURT OF MILITARY APPEALS, DEFENSE

Amendment No. 36: Appropriates \$5,855,000 as proposed by the House instead of \$6,055,000 as proposed by the Senate.

The conferees recommend a reduction from the budget request for administration, per diem, and travel as proposed by the House.

Amendment No. 37: Deletes House language which made a portion of the appropriation available for obligation only after enactment of authorizing legislation.

ENVIRONMENTAL RESTORATION, DEFENSE

Amendment No. 38: Appropriates \$1,962,300,000 instead of \$1,716,800,000 as proposed by the House and \$2,207,800,000 as proposed by the Senate.

Amendment No. 39: Deletes House language which provided funds for research and development.

SUPPORT FOR INTERNATIONAL SPORTING COMPETITIONS, DEFENSE

Amendment No. 40: Deletes House language making funds available for Support for International Sporting Competitions, Defense, and inserts and amends Senate language appropriating \$2,000,000 for the Summer Olympics and \$6,000,000 for World Cup USA 1994.

In addition, the conferees agree to House report language directing the Department to include in the fiscal year 1995 budget request an exhibit showing obligations and expenditures for these games. The conferees also agree to insert Section 8116 which extends the availability of prior year funds.

HUMANITARIAN ASSISTANCE

Amendment No. 41: Inserts Senate language providing that funds may be used for transportation of humanitarian relief supplies for the Kurdish population and other minorities of northern Iraq.

Amendment No. 42: Inserts Senate language providing technical correction that funds may be used for transportation of humanitarian relief supplies for the people of sub-Saharan Africa.

Amendment No. 43: Appropriates \$48,000,000 as proposed by the Senate instead of \$15,000,000 as proposed by the House.

The conferees recommend \$48,000,000 for humanitarian assistance, to be used only for acquisition and transportation of excess non-lethal property and supplies to the Kurdish population and other minorities of northern Iraq, the people of sub-Saharan Africa, and the people of Afghanistan.

Amendment No. 44: Deletes House language which made a portion of the appropriation available for obligation only after enactment of authorizing legislation.

FORMER SOVIET UNION (FSU) THREAT REDUCTION

Both the House and the Senate provided \$400,000,000, as requested by the budget, for assistance to the states of the former Soviet Union. The conferees agree that, as matters of specific congressional interest, within this amount \$60,000,000 shall be reserved for establishing United States-Russian joint venture companies, as proposed by the Senate, and \$10,000,000 shall be reserved for technical and linguistic support by the National Academy of Sciences as proposed by the House. In addition, funds are also available for Multilateral Nuclear Safety as proposed by the House and Economic Development as proposed by the Senate. The conferees also agree that funds from this account are available for expenses of FSU students attending the George Marshall Center.

Amendment No. 45: Inserts Senate provision: requiring that \$10,000,000 shall be available only for the continuing study, assessment, and identification of nuclear waste disposal by the FSU in the Arctic region; and extending the \$400,000,000 in transfer authority provided in the Department of Defense Appropriations Act, 1993, with any such transfers subject to the overall transfer limitation contained in this Act.

Amendment No. 46: Amends Senate provision to incorporate notification of the Congressional foreign affairs committees concerning a prohibition on use of these funds for any country which is currently engaged in the production of a new road mobile or fixed-site land based inter-continental ballistic missile armed with multiple nuclear re-entry vehicles.

TITLE III--PROCUREMENT

General Conference Issues

Installation of Modifications

The conferees agree with the Senate report on policy and procedures for budgeting for the installation of modifications. Specifically, the conferees reluctantly agree to the budget proposal to incrementally

fund these costs in procurement. The Department shall include in budget justification material the total cost of installing each kit to be procured and display, by program, the fiscal year in which the installation funds will be budgeted. In addition, the justification material shall show, by fiscal year and item, the installation costs for those kits which have already been procured. Finally, installation costs may not be reprogrammed to any other purpose.

REPROGRAMMING

The conferees agree with Senate report recommendations and directions concerning omnibus reprogrammings and new start reprogrammings. In addition, the conferees restate the current policy that reprogramming thresholds for increases and decreases in procurement and research and development appropriation lines apply to the entire life of the appropriation and are not renewed each year. In other words, an item funded in this bill in Procurement of Ammunition, Army may not be increased or decreased by below threshold reprogramming more than a total of \$10 million between now and September 30, 1996. To the extent that it is not already the case, this policy shall be incorporated in Departmental reprogramming regulations.

BUDGETING FOR CLOSED ACCOUNTS

The Senate reduced Army budget authority in investment accounts by \$120,639,000 noting that Army managers have interpreted internal instructions in a manner which causes them to request and reserve between one and five percent of funds to cover unanticipated cost overruns on prior year programs. The conferees recognize the concern of Army officials that, with the closure of the M Account, current programs may have to be cut to pay for higher prior year costs. However, to budget specifically for such unknown cost increases defeats one of the key tenets of M Account reform. That legislation was designed to foster better accountability and cost control, and to encourage discipline by program officials. Cost overruns are not to be endorsed either implicitly or explicitly. Budgeting for such contingencies sends exactly the wrong message to program officials.

The conferees emphatically direct that no program manager or Defense Department official shall submit a request to Congress which contains a contingency amount to cover prior year cost overruns. Furthermore, the conferees warn headquarters activities that, if program managers are taxed in advance of cost overruns to cover any

such costs, the Committees on Appropriations may recommend legislation next year prohibiting such activity.

Funding reduced by the Senate has been restored because of the reluctance of the conferees to recommend reductions which are not levied against specific programs.

FY 1993 OMNIBUS REPROGRAMMING

In the Department of Defense Omnibus Reprogramming (FY 1993-3PA) a series of internal realignments within the Other Procurement, Navy Appropriation for FY 1992 and FY 1993 was delayed pending action on the FY 1994 Appropriation Bill. These realignments were required in order to implement a proposed funding policy change contained in the FY 1994 Budget Request wherein the Department would budget for equipment installation on an annualized basis in the year required vice on a full funding basis in the year the major equipment is procured. In view of the conferees' position approving the requested funding policy, the conferees interpose no further objection to the OPN internal realignments proposed in the DOD Omnibus Reprogramming.

9MM HANDGUNS

The conferees understand that Navy operational requirements documentation for standard M9 handguns is nearing final approval. The conferees have no objection to the application of measures to accommodate Navy needs for an improved all steel pistol in the next M9 standard handgun procurement and are encouraged at the progress made towards handgun standardization among the services that this step represents.

Aircraft Procurement, Army

Amendment No. 47: Appropriates \$1,320,886,000 for Aircraft Procurement, Army, instead of \$1,726,164,000 as proposed by the House and \$1,125,303,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

BUDGETING FOR CLOSED ACCOUNT			-11,104		

GUARDRAIL COMMON SENSOR

The conference agreement includes \$17,385,000 for Guardrail Common Sensor aircraft. The conferees direct that \$12,500,000 shall be used only for the procurement of one RC-12 training aircraft.

NEW TRAINING HELICOPTER

The conference agreement includes \$29,254,000 for the new training helicopter program, the budget estimate. The Army shall procure as many aircraft as possible within these available funds. If additional aircraft are needed, the Army may budget for them in future budget requests. Under no circumstances, however, shall the Army continue to operate the current training helicopters when all the new training helicopters are delivered.

AH-64 MODIFICATIONS

The conference agreement includes \$37,392,000 for AH-64 Apache modifications, the Senate amount and a reduction of \$9,000,000 below the budget estimate. The conferees agree that these funds are to be used exclusively for the GPS integration program. However, if safety modifications are required during the execution of this program, funds may be used for that purpose with prior notification.

UH-1 HUEY SLEP

The House recommended \$25,000,000 to initiate a service life extension program (SLEP) for the UH-1 Huey helicopter program. The Senate opposed creation of this unbudgeted program. The Senate

recedes to the House position with an amendment. The conferees agree to provide \$15,000,000 to begin a Huey SLEP program as a lower cost option than replacing the total Army inventory with UH-60 Black Hawk helicopters. The conferees direct that the Secretary of the Army work closely with the Chief of the Army National Guard to identify the specific components of the Huey SLEP program. The Army is to give highest priority to the replacement of all major dynamic components to maximize reduced time between overhaul, reduced operating cost and improved operation performance. Any component replacement or modification must eliminate short-falls identified in the U.S. Army's January, 1993 Aviation Modernization Plan.

The conferees direct that the Army may not expend more than \$10,000,000 in federal development funds related to the SLEP program initiated under this section. The conferees further direct that none of these federal development funds shall be drawn against the \$15,000,000 provided under this heading for the Huey SLEP program.

The Army and National Guard are directed to conduct a full and open competition to initiate the SLEP program. The conferees expect the Army and the Army National Guard to be prepared to implement such a competition no later than January 1, 1994. The conferees also expect the Appropriations Committees of the House and Senate to receive periodic progress reports from the Army and the Army National Guard on the implementation of the Huey SLEP program.

UN-60 BLACK HAWK MODIFICATIONS

The conference agreement includes \$22,300,000 for UH-60 Black Hawk modifications, the Senate amount and \$24,586,000 below the budget. The conferees agree that these funds are to be used only for the refurbishment program and may not be obligated until the Army submits to the Defense committees complete budget documentation for this program. However, if safety modifications are required during the execution of this program, funds may be used for that purpose with prior notification.

Both the House and Senate denied the \$15,000,000 budgeted for UH-60Q procurement on the basis that procurement funding was premature in fiscal year 1994. The conferees agree that the Army may fund development, integration, and testing and related efforts in fiscal year 1994 using available research and development funds, with prior notification.

KIOWA WARRIOR MODIFICATIONS

The conference agreement includes \$104,348,000 for the Kiowa Warrior modification program, the Senate amount. The conferees agree that this amount includes funding for continuation of the CDS Upgrade program.

Amendment No. 48: Deletes House language making a portion of the appropriation available for obligation only after enactment of authorizing legislation.

MISSILE PROCUREMENT, ARMY

Amendment No. 49: Appropriates \$1,094,309,000 for Missile Procurement, Army instead of \$1,126,110,000 as proposed by the House and \$934,123,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

PATRIOT MISSILE--ITALIAN CASE

The conferees agree with the Senate provision regarding the Patriot Missile--Italian Case and have included a general provision which terminates the Italian Case enabling legislation upon notification by the Italian government of its desire to withdraw from the 1988 United States-Italy cooperative air defense memorandum of understanding or 180 days after the enactment of the fiscal year 1994 Defense Appropriations Act, whichever event occurs first. The conferees also direct that the authority provided to the Secretary of Defense to make Patriot assets from the Italian case available for foreign military sales under the general provision is subject to the standard notification requirements under the Arms Export Control Act.

HELLFIRE

The Department of the Army budgeted \$92,535,000 in fiscal year 1994 for the Hellfire missile system. The conferees agree to provide \$64,835,000 a reduction of \$27,700,000 to the budget request. The conferees specifically deny \$4,179,000 budgeted for the destruction and disposal of production tooling for the Hellfire I missile and \$9,673,000 for the establishment of an organic depot capability for the Hellfire II missile. The conferees do not agree with the House position of extending prior year production and delivery schedules for the Hellfire II.

TOW II

The Department of the Army budgeted \$25,282,000 for the TOW II missile in fiscal year 1994. The conferees agree to provide \$73,282,000 an addition of \$48,000,000 to the budget request. The conferees direct that \$15,120,000 budgeted originally for the destruction and disposal of TOW II production tooling be used only for the acquisition of additional TOW II missiles.

Amendment No. 50: Deletes House language making a portion of the appropriation available for obligation only after the enactment of authorizing legislation.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

Amendment No. 51: Appropriates \$888,817,000 for Procurement of Weapons and Tracked Combat Vehicles, Army, instead of \$892,709,000 as proposed by the House and \$805,074,000 as proposed by the Senate.

ABRAMS TANK UPGRADE PROGRAM

The conference agreement includes \$96,701,000 for the Abrams tank upgrade program, of which \$17,000,000 is provided only for the Congressionally mandated tank engine industrial base initiative.

The conferees agree with the Senate's direction to the Blue Ribbon panel to examine the entire gas turbine engine industrial base within their mandated review. The Office of the Secretary of Defense is directed to report to the defense committees on what action is recommended prior to January 31, 1994.

The conferees direct that the additional \$17,000,000 provided may be obligated only for tank engine long lead parts and material that can be used either by the original manufacturer or the Army's tank depot in response to solutions proposed to Congress. Such obligations may occur only after the Department certifies that a production gap would otherwise occur which would seriously impair production base options.

The conferees further direct that the Army shall negotiate and acquire the data rights for a tank engine remanufacture program prior to signing a production contract.

Amendment No. 52: Deletes House language making a portion of the appropriation available for obligation only after enactment of authorizing legislation.

25MM AMMUNITION

[Page: H9004]

The conference agreement provides \$30,535,000 for the procurement of 25mm ammunition in fiscal year 1994. The conferees direct that of the funds provided, \$25,000,000 shall be used only to buy M919 combat ammunition.

120MM MORTAR AMMUNITION

The conferees agree to the budget proposal to delete a general provision carried in previous Acts regarding the procurement of 120mm mortars and ammunition. This has been done with the understanding that the Army intends to procure mortars and ammunition, including components, from qualified domestic sources. The Army is directed to continue this policy in future procurements.

CONVENTIONAL AMMUNITION DEMILITARIZATION

The conferees agree that of the \$70,468,000 included in the bill for conventional ammunition demilitarization, \$1,000,000 shall be used only to continue the Iowa Army Ammunition Plant demilitarization upgrade program.

M864 PROJECTILE CONVERSION PROGRAM

The conference agreement includes \$25,000,000 for a demonstration program to determine the feasibility and desirability of converting elements of the M483 155mm ICM projectile inventory to M864 155mm baseburner projectiles. This is done without making any commitment to additional funding for this program in the future. The conferees direct that thirty days before obligating these funds, the Army shall present to the Defense committees its proposal for implementing this demonstration program. The proposal shall include the procurement strategy, program quantity, and cost. It shall also set forth a funding profile (quantities and costs) for continuing the program if continuation is deemed to be desirable.

The conferees direct that the demonstration program include new projectile metal parts which shall be competitively procured from the existing government-owned production base, with some production assigned to each part of that base.

FLEXIBLE MANUFACTURING CENTER

The conference agreement provides \$7,500,000 for the establishment of a flexible manufacturing center for artillery projectile bodies at the Louisiana Army Ammunition Plant.

JOLIET ARMY AMMUNITION PLANT

The conferees agree that the Army should maintain contractor-owned equipment for production of M864 baseburner assemblies at the Joliet Army Ammunition Plant for one year, pending the completion of the ammunition production base plan.

Amendment No. 55: Deletes House transfer of \$100,000,000 from the Conventional Ammunition Working Capital Fund.

CONVENTIONAL AMMUNITION WORKING CAPITAL FUND

The conference agreement deletes the House transfer of \$100,000,000 to the Procurement of Ammunition, Army appropriation from the Conventional Ammunition Working Capital Fund (CAWCF). However, the conferees agree with the discussion of CAWCF in the House report and with the actions directed by the House. Specifically, the Army is directed to report by March 15, 1994 on actions required for an orderly close-out of the Fund. The Army may also propose remedial actions as arguments for retaining the Fund.

Other Procurement, Army

Amendment No. 56: Appropriates \$2,892,766,000 for Other Procurement, Army, instead of \$2,904,933,000 as proposed by the House and \$2,784,474,000 as proposed by the Senate.

TACTICAL TRAILERS/DOLLY SETS

The conference agreement provides \$14,138,000 for tactical trailers and dolly sets, of which \$5,000,000 is available only for the procurement of M-149A2 400 gallon water trailers and an additional \$5,000,000 is available only to upgrade the mobility and stability characteristics of the M-149A2 family of water trailers.

The conferees are aware of an urgent Army requirement for M-1022 mobilizers to redress severe shortfalls in support of deployable medical systems (DEPMEDS) and aviation intermediate maintenance (AVIM) units. While procurement of the current M-1022 model would fulfill these requirements, the Army has contracted for a new design M-1022 which has yet to enter production or field test. In the event there is a delay in delivery of test vehicles, scheduled for February, 1994, the conferees direct the Army to procure sufficient quantities of the

existing model M-1022 to fill critical shortages. However, prior to the obligation of any funds for current generation M-1022 mobilizers, the Army shall report to the Defense committees regarding the test and production schedule for the new M-1022 and, if necessary, the Army's plans to comply with the conferees' direction.

TACTICAL VEHICLE MODIFICATIONS

The conference agreement provides \$28,068,000 for tactical vehicle modifications. the HMMWV conversion program has been deferred as proposed by the House. However, the conference agreement includes \$14,000,000 to be used only for the heavy armor HMMWV program. The conferees agree that the Army shall provide an overall heavy armor HMMWV program to the Defense committees by March 1, 1994. The plan shall include procurement profile (quantities and costs by year) and a description and explanation of the procurement strategy.

[Page: H9005]

COMBAT SUPPORT MEDICAL

The conferees are advised that a cost effective, NDI Liquid Oxygen System ((LOX) which satisfies the mission requirement for field generated oxygen is readily available. In fact, such a system was successfully employed by the Army during Operation Desert Shield and Desert Storm. The Army has assigned a high priority to acquiring field medical oxygen generation capability. The conferees understand that the Army's acquisition strategy for field oxygen generation systems includes a requirement for LOX as well as for the Army developed Field Medical Oxygen Generation and Distribution System (FMOGDS). However, the budget request included funds only for FMOGDS.

The conferees direct the Army to prepare a report addressing the overall requirements for field medical oxygen systems in light of its revised evacuation doctrine and projected force structure requirements and provide said report to the defense committees not later than August 1, 1994.

ALL SOURCE ANALYSIS SYSTEM (ASAS)

The conferees agree to provide \$29,578,000 for the All Source Analysis System (ASAS), the amount of the fiscal year 1994 budget request. The conferees also direct that of the funds provided for the ASAS program in fiscal year 1994, \$3,500,000 is only for the

acquisition of communications and ADP equipment related to the upgrade program for the Single Source Processor--SIGINT workstations.

INTEGRATED FAMILY OF TEST EQUIPMENT (IFTE)

The Conferees agree to provide \$23,472,000 an increase of \$9,000,000 above the fiscal year 1994 budget request for Automatic Test Equipment development. The conferees direct that the additional funding provided for this program only be used to develop test program sets for the Apache Longbow and Kiowa Warrior. The conferees further provide \$500,000 for the Army to conduct a user test of DSESTS-TOW, making use of the prototype located at Fort Hood. If this study demonstrates that the incorporation of DSESTS-TOW will be cost effective, the conferees have provided \$5,000,000 for the purchase of this equipment in fiscal year 1994. The conferees have also provided an additional \$10,000,000 above the budget request for IFTE equipment for use only by the Army National Guard and Reserve.

Further, the conferees support the Army's decision to adopt a single standardized family of test equipment for all weapon systems. Fielding a limited family of test equipment to service multiple weapons systems is economically and operationally desirable in this era of declining defense budgets. While it is recognized that the DSESTS system services all current tracked vehicles and that the DSESTS optical system is being considered for use as the IFTE EOA, the conferees are in agreement that Army policy concerning automatic test equipment must be maintained. The conferees therefore direct the Department of the Army to prepare an analysis to determine the remaining useful life of DSESTS. The analysis should also determine the appropriate date to transition from DSESTS to the IFTE Base Shop Test Facility as the primary automatic test equipment for armored systems and shall also investigate the feasibility of incorporating DSESTS into the IFTE family. The results of this analysis should be provided to the Committees on Appropriations no later than March 15, 1994. The conferees also direct that no future upgrades, unless proven cost effective, will be made to DSESTS.

AIRCRAFT PROTECTION INITIATIVE

The conferees concur with House position on the Aircraft Protection Initiative program.

TRAINING DEVICES

The Conferees agree to provide \$84,650,000 for this program activity in fiscal year 1994, an increase of \$5,000,000 above the budget request. The conferees further agree that the additional funds are only for the Improved Moving Target Simulator (IMTS) as explained within the Senate report.

Amendment No. 57: Deletes Senate language earmarking \$18,000,000 for procurement of heavy armor HMMWV's. This issue is discussed further above.

AIRCRAFT PROCUREMENT, NAVY

Amendment No. 58: Appropriates \$5,704,220,000 for Aircraft Procurement, Navy, instead of \$5,664,216,000 as proposed by the House and \$5,665,615,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

EA-6B PROWLER

The Navy has been developing new electronics for the EA-6b PROWLER for the past few years with the expectation of increasing the capability of this important aviation asset. In the past the conferees have supported this program as a cost effective way to increase the survivability of other Navy assets.

The conferees continue to believe the Navy's program to increase the capability of sensors and avionics, as well as remanufacture of the airplane, is going to be cost-effective and timely. In particular, the conferees are encouraged by the progress made thus far as evidenced by the reports issued upon completion of development testing and operational evaluation. The technical test summary stated that the systems ` * * * demonstrated excellent potential for the tactical jamming mission due to the magnitude of improvement * * * over the current EA-6B ICAP-II variants * * *'. And the operational test summary stated the systems were ` * * * assessed to be potentially operationally effective and operationally suitable.'

The conferees agree to provide \$77,586,000 for the EA-6B program as requested and expect the program to transition to low rate initial production as soon as possible. The conferees request that the fiscal year 1995 budget request include production funding to support fleet introduction of EA-6B ADVCAP.

T-45 GOSHAWK

The conferees agree to provide the budget request of \$289,981,000 for 12 aircraft, simulators, and advance procurement.

The conferees understand that if Navy chooses to proceed with a T-45 engine competition, proper execution of the competition requires realigning fiscal year 1992 Aircraft Procurement, Navy funds to

research and development. The conferees direct that the Navy use the existing 1992 APN engine competition funds (\$15 million) for on-going T-45 production purposes and reprogram \$15 million in 1993 or 1994 T-45 procurement funds to research and development for continuing the T-45 engine competition if necessary. This creates a total of \$35 million for engine competition.

F-14 MODIFICATIONS

The conferees agree to provide \$116,213,000 as requested instead of \$9,213,000 as recommended by the House and \$291,213,000 as recommended by the Senate. The conferees are concerned with current Defense Department and Navy plans for the F-14 which accentuate air-to-ground modifications over re-engining. The Navy is directed not to obligate \$107,213,000 of the funds provided for F-14 modifications until it reconsiders its current plan for the F-14 upgrades and reports back to the Committees on Appropriations of the House and Senate in conjunction with the fiscal year 1995 budget submission. In its report, the Navy should examine the relative merit of the planned upgrade program versus continuing to re-engine F-14 aircraft. The conferees understand that re-engining F-14 aircraft remains the highest priority of the Navy fleet and believe that re-engining should be of higher priority than the planned air-to-ground upgrades or other enhancements.

H-1 SERIES MODIFICATIONS

The conferees agree to provide \$47,858,000 for H-1 series helicopter modifications. The conferees direct the Department of the Navy to fund the programs within this account in accordance with fleet priorities.

P-3 SERIES MODIFICATIONS

The conferees agree to provide \$118,304,000 as proposed by the Senate. The amount provided is \$107,038,000 above the House recommendation and \$96,000,000 below the budget request.

The conferees agree that the maritime patrol force modernization plan of 2 September 1993 submitted to the Congress by the Secretary of the Navy is a substantial improvement over previous plans.

Accordingly, the conferees agree to endorse the following: (1) the maritime patrol force structure for fiscal year 1994 shall be 16 active and 9 reserve squadrons of 8 aircraft each; (2) the Navy shall take

appropriate action to ensure 29 P-3B heavy weight aircraft are reconfigured as TP-3C aircraft to satisfy training squadron requirements; (3) the P-3C sustained readiness program should be aggressively pursued and ramp up to at least 20 per year by fiscal year 1997; and (4) the ASUW improvement program may be initiated in fiscal year 1994, but funds for 12 of 13 proposed systems are deleted until program testing has commenced as proposed by the Senate.

If any of the foregoing issues cannot be fully accommodated, the Secretary of the Navy is directed to notify the House and Senate Defense Appropriations Subcommittees that a problem has emerged and identify what action is necessary to correct the problem.

[Page: H9006]

E-6 SERIES MODIFICATIONS

The conferees agree to provide \$58,282,000 for E-6 modifications as proposed by the Senate. The amount provided is \$60,179,000 below the amount provided by the House and the budget request of \$118,461,000. The reduction is based upon documentation provided with the budget request which stated the airborne command post modification approval for production would occur in 1996. Subsequent material from the Department of the Navy indicates an acceleration of the production approval process is expected and a decision will occur in 1994.

The conferees acknowledge the importance of the modifications but have no assurances that production approval will occur two years ahead of the original schedule. Therefore, the conferees have agreed to the Senate reduction but will consider any proposed reprogrammings for this effort if the planned schedule changes and necessary approvals are achieved.

S-3 SERIES MODIFICATIONS

The conferees agree to provide \$16,660,000 for S-3 series modifications. The amount provided is \$3,750,000 above the budget request. The increased funding is to be used to initiate procurement of AN/USH-42 mission recorders as stated in House Report 103-254.

COMMON ECM EQUIPMENT

The conferees agree to provide \$71,774,000 for procurement of common ECM equipment. The amount provided is \$6,000,000 more than the budget request. The additional funds are to be used only for continued procurement of the LAU-138/A launcher raid chaff dispenser system.

WEAPONS PROCUREMENT, NAVY

Amendment No. 59: Appropriates \$2,986,720,000 for Weapons Procurement, Navy instead of \$2,808,986,000 as proposed by the House and \$2,972,906,000 as proposed by the Senate and inserts Senate provision concerning the Trident II D-5 missile.

MK-50 ADVANCED LIGHTWEIGHT TORPEDO

The conferees agree to provide \$46,269,000 for the Mk-50 Torpedo program an addition of \$24,850,000 to the fiscal year 1994 budget request. Of the additional funding provided by the conferees, \$2,850,000 is for the safe disposal of 920 Mk-50 boilers, \$5,000,000 is for the settlement of requests for equitable adjustments that can be negotiated and paid in fiscal year 1994, and \$17,000,000 is for continued procurement of the Mk-50 torpedo.

VERTICAL LAUNCHED ASROC (VLA)

The conferees agree to provide \$32,682,000 for the Vertical Launched ASROC (VLA) program an addition of \$10,000,000 to the fiscal year 1994 budget request. The conferees direct the Department of the Navy to procure as many VLAs as possible with the funding provided.

PRACTICE BOMBS

The conference agreement includes \$14,346,000 for practice bombs. Of this amount, \$10,000,000 is available only for procurement of laser guided practice bombs.

5"/54 GUN AMMUNITION

The conference agreement provides \$51,961,000 for 5"/54 gun ammunition. Of this amount, \$18,958,000 is available only for procurement of high explosive (HE-CVT) ammunition.

Amendment No. 60: Deletes House language making a portion of the appropriation available for obligation only after the enactment of authorizing legislation.

Shipbuilding and Conversion, Navy

Amendment No. 61: Deletes the Senate proposed funding for the carrier replacement program.

Amendment No. 62: Appropriates \$2,642,772,000 for the DDG-51 destroyer program as proposed by the House instead of \$2,610,972,000 as proposed by the Senate.

Amendment No. 63: Appropriates \$50,000,000 for advance procurement on the LHD-7 amphibious assault ship rather than earmarking from within available funds as proposed by the Senate.

Amendment No. 64: Appropriates \$124,175,000 for the mine warfare command and control ship as proposed by the House.

Amendment No. 65: Appropriates \$110,049,000 for the oceanographic ship program as proposed by the House instead of \$62,482,000 as proposed by the Senate. Also deletes House language on T-AGS 60 contract options and Comptroller General recommendations.

Amendment No. 66: Deletes House language which included production design support along with other miscellaneous costs.

Amendment No. 67: Deletes House language which included cost growth along with other miscellaneous costs and appropriates \$343,104,000 for craft, outfitting, post delivery, and first destination transportation, instead of \$595,131,000 as proposed by the House and \$330,104,000 as proposed by the Senate.

Amendment No. 68: Appropriates a total of \$4,195,075,000 instead of \$5,397,102,000 as proposed by the House and \$7,332,133,,000 as proposed by the Senate.

SCN ACCOUNT CLOSING

[Page: H9007]

The conferees understand that the Department of Defense has drafted special guidance governing the application of the account closing law to the Shipbuilding and Conversion, Navy (SCN) appropriation. The conferees are concerned that the guidance must recognize that the SCN appropriation must be considered an indefinite account. This guidance would be consistent with the proviso that the Congress has added to the SCN appropriation since 1984 to recognize the unique nature of ship construction and extend its availability.

The conferees direct the Secretary of Defense to issue procedures to ensure that the account remains available until all the purposes for which the appropriation was made available have been accomplished. The conferees expect the Department to adhere to all limitations in the appropriation throughout its life, and to close it expeditiously when the purposes have been accomplished.

DISPUTED CLAIMS

The conferees are aware of a long standing dispute between Southwest Marine of San Diego, California and Atlantic Dry Dock of Jacksonville, Florida and the Department of the Navy over facility investments made by these two shipyards. Although, the shipyard owners agree that there is no legal remedy for a claim to be paid by the Navy, they continue to believe that, in fairness, the Navy should pay costs which the yards incurred in making facility investments. The conferees direct the Navy to examine this issue again and inform the Committees on Appropriations of the House and Senate by May 31, 1994 on what course of action it recommends to resolve this matter.

STUDY OF NUCLEAR POWERED AIRCRAFT CARRIERS AND SUBMARINES

The conferees direct the Comptroller General of the United States to study the cost-effectiveness to the Navy of the utilization of nuclear powered aircraft carriers and nuclear powered submarines. The study should include the following:

1. A comparison of the life-cycle cost, including the cost of processing or otherwise disposing of nuclear fuel and other nuclear waste removed from nuclear-powered ships, of nuclear-powered aircraft carriers and nuclear-powered submarines with the life-cycle cost of conventionally-powered aircraft carriers and conventionally-powered submarines;
2. A comparison of the cost of procuring nuclear-powered aircraft carriers with the cost of carrying out the service-life extension or complex overhaul of existing conventionally-powered aircraft carriers;
3. A comparison of the projected cost to the Navy of operating a fleet of twelve aircraft carriers utilizing one or more homeports located at foreign overseas installations with the projected cost of operating such a fleet utilizing only homeports located in the United States;
4. An assessment of the refueling costs and the cost of disposing of the waste generated by such refuelings for the nuclear-powered aircraft carriers of the fleet through the year 2020;
5. A detailed estimate of the costs associated with processing or otherwise disposing of nuclear fuel and other nuclear material from the existing nuclear-powered fleet of ships in the Navy; and
6. A detailed description of all programs of the Department of Defense and the Department of Energy relating to nuclear propulsion systems for naval ships that utilize such systems required for the nuclear-powered aircraft carriers,

DDG-51 DESTROYER

The conferees agree to provide \$2,642,772,000 for procurement of three DDG-51 class destroyers. The funding provided is to be used for procurement of three destroyers as well as production design support. The conferees reject the Department's proposal to finance design support outside the production funding line.

The conferees further agree that the Department should more aggressively explore the use of existing equipment which can be removed from ships planned for retirement and used on new platforms.

Two issues were addressed in previous reports on this program. First, the conferees have adopted a general provision that prohibits using any funds for a sole source procurement of ring laser gyroscope configured inertial navigation systems. Second, the conferees agree the Navy should conduct a competition in 1995 for switchgear for flight IIA DDG-51 class destroyers.

Further, the conferees agree to allow the Department of the Navy to go forward with the award of contract N00024-93-C-5203 for DDG-51 shipboard display equipment subject to the same restrictions that apply to Navy Tactical Data Systems equipment as discussed in the Other Procurement, Navy section of the statement of managers.

LHD-7 ADVANCE PROCUREMENT

The Senate earmarked \$50,000,000 in funds from the LHD-6 which could have been used for advance procurement on the LHD-7. The Senate action presupposed that, if an LHD-7 were to be purchased, the cost of the LHD-6 would be reduced as the shipyard would be receiving additional work. The conferees agree with the intent of the Senate in support of the LHD-7. However, there is a concern that the price of the LHD-6 will not decrease with the addition of the LHD-7. Therefore, the conferees have added \$50,000,000 which may be available for advance procurement on the LHD-7. The conferees expect that the Defense Department will fund the balance of the ship in fiscal year 1995 prior to obligating the advance procurement funds.

SERVICE CRAFT

The conferees agree to provide \$36,986,000 for procurement of service craft. The agreement includes a reduction of \$3,376,000 from the budget request to reflect the Department of the Navy's decision to delete the large covered lighter (YFNB) from its service craft requirements. Additionally, the conferees agree to provided \$5,000,000 above the budget request for six open lighters (YC) and two fuel oil storage barges (YOS).

Finally, the conferees have provided, in this account, \$8,000,000 for conversion of the USNS CHAUVENET to a training ship for the Texas Maritime Academy's Training Program.

OUTFITTING AND POST DELIVERY

The conferees agree to provide \$211,003,000 for outfitting and \$89,322,000 for post delivery expenses. In total, the funding provided for these two accounts is \$120,737,000 below the budget request.

SHIP COST ADJUSTMENT

The conferees have included a general provision (section 8120) which transfers \$761,101,000 in prior year funds to cover cost increases in various ship programs. The only source used for transfer which was not identified by Navy officials is \$55,500,000 from the Space Nuclear Thermal Propulsion Program within the RDT&E, Air Force appropriation. The following table lists the adjustments by appropriations.
